

June 2022

Dear Parents and Guardians,

I am looking forward to working with you and your child for the 2022-2023 school year. How can you best prepare your child for a smooth transition to third grade? Here are a few suggestions:

- **Summer Bridge Workbook:** Please consider using this workbook with your child. You can use this link to purchase. [Summer Bridge Activities | Sale \\$9.99 | Second to Third Grade](#) Summer Bridge Activities: Bridging Grades 2–3 gives students a head start for their third-grade year. Review second-grade skills such as skip-counting and using adjectives while preparing for third-grade skills such as rounding numbers and writing compound sentences. School stops for summer, but learning never should! Engaging practice activities for math and language arts skills can be completed in just 15 minutes during each weekday of summer vacation. All activities support current state standards. In addition, exclusive features help kids stay active and healthy by moving and thinking, with activities such as goal setting, character development exercises, fitness challenges, hands-on science experiments, social studies activities, and outdoor learning experiences. Bonus flash cards and an online companion are included. With 12 weeks of learning fun, Summer Bridge Activities is the perfect way to keep skills sharp all summer long!
- **Practice your math facts!** Students should continue to practice addition and subtraction facts so they are able to do them fluently- no counting on fingers. Students should check out websites like Khan Academy, abcy, funforthebrain, splashlearn, education.com, or prodigy to help them reinforce and retain their math skills.
